PROFESSIONAL SUMMARY

Junior Software Engineer (Probation) at Senova Global, with internship experience building and deploying multi-tenant SaaS, e-commerce and internal enterprise systems, supported by academic and client projects across web, mobile and desktop. Strongest in TypeScript and JavaScript backends, REST APIs, databases, and Docker and VPS deployment. Higher National Diploma in Software Engineering (GPA 3.98, First Class); Diploma GPA 4.0 (Distinction).

CORE SKILLS

Languages: TypeScript, JavaScript, Python, Java, PHP, Kotlin

Frameworks and Libraries: Node.js, React, Spring Boot, Flutter, Bootstrap

Databases: MySQL, MongoDB, Microsoft SQL Server, Firebase, SQLite

DevOps and Cloud: Docker, Nginx, Git, GitHub Actions, VPS deployment (Contabo, DigitalOcean), IIS

APIs and Integrations: REST APIs, email and SMS APIs, PayHere payment gateway, role-based access control, multi-tenant architecture

AI and Automation: Python AI assistants, local LLM and agent workflows (Ollama)

WORK EXPERIENCE

Junior Software Engineer (Probation) | Senova Global Pvt Ltd | 2026 – Present

- **Currently building Olga Work OS,** Senova Global's multi-tenant HR and work platform, covering nine product areas (daily work, approvals, projects, calendar, leave, attendance, workflows and insights) for desktop and mobile.
- **Built the backend scaffold in Express and TypeScript,** with MySQL migrations, tenant resolution from the request host and tenant-scoped login; documented the full REST contract and removed the mock-data layer before backend development.
- **Implemented roles, sub-roles, permissions and leave entitlements as configurable data,** with configurable attendance and break types, rather than hard-coded rules.
- **Built H.M.K Motor Care,** an offline-first Java desktop application for motor care, using SQLite and MongoDB, as a company project during probation.

Software Engineering Intern | Senova Global Pvt Ltd | December 2025 – June 2026

- **Developed Peggy,** an e-commerce platform for Sri Lankan handicrafts, and deployed it with Docker and Nginx on a VPS.
- **Engineered a multi-tenant SaaS inventory management system,** covering inventory workflows end to end on a scalable architecture.
- **Translated business requirements into technical specifications and RESTful APIs,** working with cross-functional teams on enterprise software and internal tools.
- **Managed cloud deployments and automation on Contabo and DigitalOcean VPS,** and desktop deployments on IIS.
- **Collaborated on a standard inventory management system and a multi-provider SMS portal,** and on the redesign of the company's main portfolio.
- **Worked in agile development cycles,** taking part in code reviews and debugging to maintain code quality.

Co-Founder | WorkMate, Galle | 2024 – Present

- **Co-founded WorkMate and leads its software development,** building end-to-end systems across web and mobile.

Client Project | Baby's Bistro | 2026

- **Scoped and designed a POS System** for a local restaurant located in Unawatuna with online data backup integration and both online and offline working functionality.

PROJECTS

Ensenar Ecosystem | Multi-platform educational suite | Academic project

- **Built a multi-platform educational suite** with a web platform, mobile app and Python AI assistant on a TypeScript and Python backend with MongoDB.

AlgoPulse | Interactive DSA learning platform | Academic project

- **Built an interactive data structures and algorithms learning platform** with real-time visualisations, using Spring Boot, React and MongoDB.

PawHub | Flutter mobile app with IoT | Academic project

- **Built a Flutter mobile app** that uses Arduino sensor data to monitor pet health and track vaccinations.

QueuePro | Hospital queue management system | Academic project

- **Built a hospital queue management system** automating patient registration with live visualisation, using PHP, MySQL and Bootstrap.

EDUCATION

Higher National Diploma in Software Engineering | National Institute of Business Management (NIBM), Galle | 2024–2026 | GPA 3.98 (First Class)

Diploma in Software Engineering | National Institute of Business Management (NIBM), Galle | 2023–2024 | GPA 4.0 (Distinction)

G.C.E. Advanced Level | Vidyaloka College, Galle | 2022

CERTIFICATIONS

HackerRank — SQL (Intermediate), 2024 | HackerRank — Software Engineer Intern certificate, 2025

ADDITIONAL INFORMATION

O/L Mathematics and ICT Tutor, 2022–2025. Languages: English, Sinhala, Tamil.
